

## The Features of BIONICS INSTRUMENT Sensor

- ✦ Renewable - Replacing Membrane, Electrolyte
- ✦ Membrane Galvanic & Concentration Cell
- ✦ H & D type sensor life - approx. 3 - 5 years
- ✦ E type sensor life - approx. 1.5 - 2 years
- ✦ Very short sensor warm up time
- ✦ GT, HT, HS sensor : Both on & off site calibration
- ✦ Low Running Cost
